4. Complete skipped tasks

If there are any tasks that you skipped or are still incomplete, [start from the beginning](#), from the Day-1 tasks, go line by line, and make sure that you complete every task. Follow up with all the freelancers that you had hired and ensure that they complete their jobs.

If all the tasks are done, from Day-1 to Day-7, and your blog is officially launched, take the time to celebrate.

Congratulations!

You have completed the entire **7-Day Launch Plan**; you are officially a blogger.

Just stay consistent with all the daily blogging activities; money will come.

To your success!
